

## Offline Revocation Form

**Online revocation:** SwissSign strongly recommends using the online revocation services offered at [www.swissign.net](http://www.swissign.net). Log in to your account; select the search functionality and press the search button. You will see all your requested and issued certificates in a list. Next to each certificate in the list you will find a «revoke» button which allows you to revoke the selected certificate. For customers using our new MPKI Service on [ra.swissign.ch](http://ra.swissign.ch) please refer to the relevant section in your RA Operator Handbook.

**Offline revocation:** If the online revocation is not possible for your case, please fill in the following form and send it with all attachments (e.g. copy of your passport) to:

**SwissSign AG, RA Office, Sägereistrasse 25, P.O. Box, CH-8152 Glattbrugg, Switzerland.**

The SwissSign Registration Authority Office will then revoke your certificate.

### 1. Legal

Upon signing this form, the subscriber signing under 6 or the legal representatives of the organization signing under 7 acknowledge to comply with the following and declare herewith:

- that all information and declarations provided are accurate and true.
- to authorize the revocation of all certificates containing the information specified in 2.
- that all copies of documents provided are made of valid, legal and original official documents.
- to accept all liabilities and damages resulting from the substantial delay between the issuance of the revocation order by the subscriber, its receipt, and its execution by the Registration Authority (RA).
- that this form may only be used to request the revocation of certificates previously requested through SwissSign.

### 2. Certificate type

Please select the type of certificate you wish to revoke:
